Permit and Inspections

3 engineers, 2 architects, 1 contractor, 5 subs, 4 reviewers and 3 inspectors in 14 different locations ... organize that.

Wouldn't it be nice to have a single interface where everyone could collaborate? Where you can look at a project and know everything that you need to know?

Well, you can. Experience a solution where everyone works seamlessly together online. Oh, and by the way, "yes", you can afford it.

License / Registration

5,000 licensed contractors - and 5,000 renewals are due out in 2 days... good luck.

Wouldn't it be nice to click a button and get 5000 renewal letters? Better yet, what if all 5000 could renew online? Pay online? Update their own information or upload needed files like their insurance policy? What if they were automatically stopped from requesting permits or inspections because their policy expired?

Well, in our world, this happens every day. Join us and get a solution, not just software.

Code Enforcement

50 inspections, 12 new complaints and 3 reports due ... and it's only Monday.

What is eating up your time? Creating letters? Hunting down ownership information? Scheduling and tracking inspections? Wouldn't your world just be easier if everything was automated?

Well, it can be. It's time for a solution. Join the world where Code Officers collaborate to create solutions, not software. Did we mention that your budget will love it?

Lien Tracker

4 file cabinets, 16 drawers and 10,000 liens at 10% interest ... how much is due?

How many liens do you have outstanding? How much? How many were paid off? Struck off to Sheriff's Sale? What's the payoff for 101 E. Main on Friday? If these are your questions, then here is your answer - Lien Tracker.

Public Works

It's 30 days before budget submittal... do you know where your money went?

Complaints pouring in. Work orders pouring out. And now, your favorite councilman wants to know how many potholes you filled in his district. So, how many did you fill? How much did it cost? How much material did you use? Which crews did the work? Which workers? Which managers?

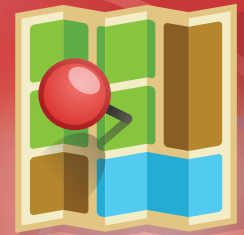

Your job is complex. Why not simplify it?

Online GIS

50 field inspections on properties with no addresses ... and your GIS is where?

If you work in the field, shouldn't your GIS? Mapping on the Go. Unleash your GIS to be as mobile as you are.

Request Tracker

150,000 citizens, 7 council members, 12 departments and 200 employees ... did I miss a call?

You have Councilman Smith on hold. You know what he wants. He's calling about his five requests last week. OK, how do you finish this...

- A) I have no idea what is going on
- B) Pretend I'm in a meeting and hope he forgets
- C) Answer the call with confidence because I use Request Tracker. "Hello Councilman Smith ..."

Apartment Tracker

50 apartments, 250 buildings and 10,000 units ... which ones have I inspected?

Imagine knowing where to start. The shortest inspection route. The rooms in each unit listed in inspection order. Correction notes specific per room type. Correction fees auto-adding. Clicking a button and "boom", your Correction Notice generates.

No, this is not magic ... it's automation. Call us when you're ready.
